

ParcelPilot Customer Support Policy

Document ID: PP-POL-001

Version: 3

Status: CURRENT

Effective date: 2026-05-01

[SYNTHETIC FIXTURE - not the real assessment pack]

1. Scope and Definitions

This policy applies to all ParcelPilot business customers on Standard, Growth and Enterprise plans unless a signed customer agreement states otherwise.

'Pickup commences' means the moment a driver arrives at the collection address and starts loading. 'Business hours' are 08:00-20:00 UTC Monday to Friday.

2. Support Channels and Hours

The support portal is available 24/7 at portal.parcelpilot.example.

Email support is monitored during business hours. Phone support is available to Growth and Enterprise customers during business hours.

3. Severity Levels and Response SLAs

P1 Critical - platform unusable or cold-chain failure in progress. First response within 1 hour, target resolution within 8 business hours.

P2 Major - major feature degraded, no workaround. First response within 4 business hours, target resolution within 24 business hours.

P3 Minor - minor issue or question. First response within 1 business day, target resolution within 3 business days.

4. Cancellation Policy

A booking may be cancelled free of charge if the cancellation is requested before pickup commences AND within 60 minutes of the booking being placed.

If pickup has already commenced, cancellation incurs a fee equal to 25% of the order value with a minimum fee of USD 40. Prepaid amounts are refunded minus the applicable fee within 10 business days.

5. Late Pickup Compensation

If a pickup occurs more than 90 minutes after the scheduled pickup time, the customer receives a service credit of USD 25.

If the delay exceeds 180 minutes, the credit is 10% of the order value, capped at USD 150.

Compensation must be requested within 14 days of the incident.

6. Service Credit Administration

Service credits are applied to future invoices, are not redeemable for cash, and are capped at USD 500 per account per calendar month.

Any single credit above USD 250 requires approval by a ParcelPilot operations manager before it is issued.

7. Escalation Path

Escalate to a human support manager when policy is unclear, when sources conflict and cannot be resolved, when a request falls outside this policy, or when the customer requests a human. Escalations must reference the affected order or ticket identifiers.
