

Cancellation and Service Credit SOP

Document ID: PP-SOP-004

Version: 4

Status: CURRENT

[SYNTHETIC FIXTURE - not the real assessment pack]

1. Purpose

Standard operating procedure for ParcelPilot support staff handling cancellations and service-credit requests. Follows the Customer Support Policy; where the customer has a signed agreement, the agreement takes precedence.

2. Identity and Account Verification

Confirm the requester acts for the account before disclosing any order, invoice or ticket detail. Never act on or disclose data belonging to a different account.

3. Data to Collect Before Deciding

Retrieve the order record and confirm scheduled versus actual timestamps. Confirm the request was raised within the applicable claim window. Check account standing (no unpaid invoices older than 30 days). Identify whether an account-specific agreement exists and read its terms.

4. Cancellation Handling Procedure

Step 1: retrieve booking and confirm status. Step 2: determine whether pickup had commenced. Step 3: compute the fee under the governing source - customer agreement first, otherwise the current support policy. Step 4: quote the fee, obtain explicit confirmation, then record the cancellation. Step 5: log the action against the ticket.

5. Service Credit Eligibility Checklist

All four conditions must hold unless the customer agreement provides otherwise:

- a) A breach is confirmed from the order record timestamps themselves.
- b) The request was raised within 14 days of the incident (or the window stated in the customer agreement).
- c) The account is in good standing, meaning no unpaid invoices older than 30 days.
- d) The amount fits the monthly cap and approval matrix below.

6. Approval Matrix

Credits up to USD 250 may be approved by the handling agent. Above USD 250 an operations manager must approve. Above USD 500 a director must approve.

7. Use of Historical Tickets

Past ticket outcomes and notes are context only. They show how similar situations were handled but are never an authoritative source for fees, entitlements or eligibility. Always cite the governing policy or agreement instead.
